ID-EL630IR50L2812

The ID-EL630IR50L2812 is the ultimate indoor dome. This is our new Elite series camera that features a brand new DSP and the Sony Super HAD II CCD. This is one of the highest resolution indoor domes on the market and has many amazing features. This security camera achieves an amazing 630TVL in full color and 700TVL when in black and white. The Infra Red LEDs will turn on automatically in low light and will provide up to 60'ft of clear video in complete darkness. Also, the sense up feature in the

OSD will allow you to increase low light sensitivity providing outstanding night time viewing. Using its 2.8-12mm lens you can choose between a super wide view or a very tight view at a distance. This camera can see in extremely low light and is rated for .0001 LUX. There is a built in on screen display which can be controlled from a joystick that is built right into the cable. From the OSD you will be able to control all of the camera's features including DWDR (Wide Dynamic Range), BLC, DNR (Digital Noise Reduction), Sense Up and much more. This camera is dual voltage and the OSD can be controlled via RS485 which is a very convenient feature. Our Elite Series cameras are covered by a 2 year factory warranty and of course you will have access to our best in industry tech support to assist you with the set up.
